

# L-Grid®2EH 2x2

## Flat Panel LED Troffer

### Key Features

- Energy-efficient 2x2 LED recessed troffer for both new construction or retrofit applications.
- NSF certified for controlled environments.
- Integrated battery back-up option available.
- Plenum air return option with slots available.
- Low-profile design provides flexibility for installing in low plenum areas (non-IC rated).

### Electrical

- 120-277VAC input.
- 0-10V dimming standard (Mark 7 interface), excluding High Flux Level.
- Integrated constant power battery back-up accessory available.
- Operating Temperature for High Flux Level: -40°C to +30°C (-40°F to +86°F)<sup>2</sup>

### Mounting

- Easy to install in standard T-Grid ceilings.

### Construction

- Extruded aluminum frame with steel backing prevents light leak and is built for superior strength and durability.
- Frosted white lens offers complete shielding and uniform light distribution that's glare-free.
- Weight: 15.0 lbs. (6.8kg)

### Optics

- Edge-to-edge illumination with no visible bright spots or pixelation.
- Industry leading LEDs with 3500K, 4000K, and 5000K CCT (minimum 80 CRI).
- Lumen Maintenance: >181,000 hours (L70)<sup>1</sup>

### Warranty

- Backed by US LED's industry-leading Ten-Year Warranty.

### Ordering Information

GTR2

### Product Performance Summary

Lumen Output	Up to 21,480 lumens
Efficacy	Up to 123 LPW
CRI	≥ 80 CRI
Available CCT	3500K, 4000K & 5000K
Warranty	Ten-Year Warranty

### Product Overview

For new construction or one-for-one replacement applications, the L-Grid®2EH 2x2 troffer stands ready. It is the total lighting solution, providing an appealing and unobtrusive presence while simultaneously delivering extraordinary light through a flat, frosted lens. With convenient installation options available, integrating this luminaire into your workplace will be simple and straight-forward, regardless of the application.

### Product Applications

- Classrooms
- Conference Rooms
- Office Spaces
- Hallways/Corridors
- Industrial/Warehouses
- Convenience Stores
- Retail Areas
- Health Care Facilities
- Food Preparation Areas
- Commercial Spaces

### Product Certifications

- UL Listed
- Complies with UL1598 and CSA 22.2
- Suitable for Damp Locations
- NSF Certified
- RoHS Compliant

Example: GTR2-22-50-80-UNV2-H-N-F R001

	
<b>Product Code</b>	<b>Accessories</b>

1. US LED product 'Lifetimes' refer only to the LED light engine, not the power source, and are based on the Illuminating Engineering Society's TM21 Projected Lumen Maintenance methodology at a 25° C / 77° F ambient temperature. The lifetimes are solely meant to be a guide for expected LED degradation and not a warranty or predictive of their actual life, which can be affected by ambient temperatures and other factors.  
2. Non-Insulation Contact: Must be installed in plenum air return grid ceiling. Install with minimum spacing between: (A) Center-to-center of adjacent luminaires: 48" (1200mm) (B) Top of luminaires to overhead building member: 10" (250mm) (C) Luminaire center to side building member: 24" (600mm)

### Accessories

#### DW-22TX 2x2 Drywall Flange Kit

##### Overview

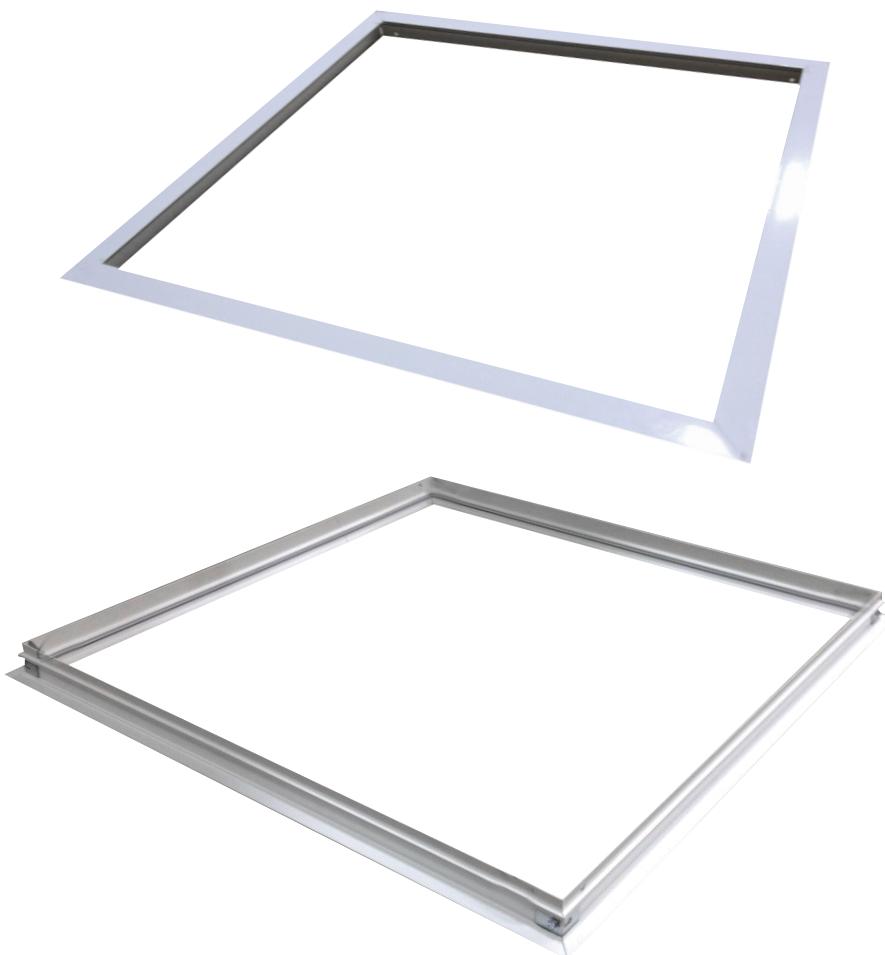

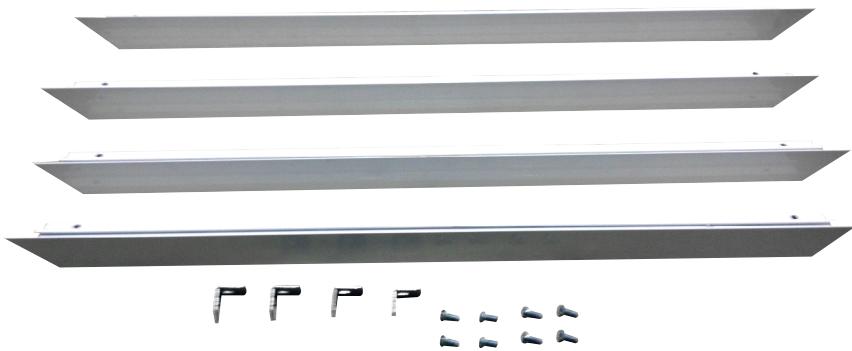

Drywall flange kits act as T-Bar frames to support recessed troffer luminaires in wood, drywall, or plaster ceilings. From the room side, flange kits mimic the appearance of T-Bars in a baked white enamel finish.

##### Key Features

- 22 gauge steel, pre-painted white finish.
- All kits include: (2) side flanges, (2) end flanges, (4) corner brackets, and (8) thread cutting screws.

##### Specifications

- 2x2 Rough Opening: 24.66" x 24.66"

### Accessories

#### ILB-CP12A - Constant Power LED Emergency Driver

##### Overview

The ILB-CP12 from IOTA Engineering is a UL Listed and Classified LED emergency driver that allows the same LED fixture to be used for both normal and emergency operation. In the event of a power failure, the ILB-CP12 switches to the emergency mode and operates the existing fixture for 90 minutes. The unit contains a battery, charger, and converter circuit in a single can and is available in different mounting configurations for individual fixture requirements. The ILB-CP12 will operate an LED array load at 12 watts with constant power at a rated output voltage of 10V-60V.

##### Key Features

- UL Listed (UL924/UL1310) for factory and field installations.
- Patented constant power design maintains illumination throughout the 90-minute runtime with no light degradation.
- Two-wire universal AC input.
- Output Class 2 compliant.
- Six mounting configurations available.
- Long life high temperature Ni-Cad battery.
- Includes single-piece TBTS test switch and charge indicator accessory kit.
- Meets or exceeds all NEC, IBC, and Life Safety Code Emergency Lighting requirements.

#### IP710-LFZ - Leviton® Wall Control Slide Dimmer

##### Overview

Leviton offers many products that will help lower electrical costs and add convenience to everyday living. By simply replacing standard switches with dimmers reduces energy consumption and extends bulb life. IllumaTech Preset Dimmers feature a low-profile fluid slide bar movement for fine adjustment of light levels or fan speeds that's accompanied by an easy-to-use ON/OFF preset switch. The switch provides quick ON/OFF control without disturbing your favorite pre-selected settings. Most feature a built-in LED locator light, as well.

##### Key Features

- 1200VA, 120/277 Volt AC 60Hz
- Single-Pole & 3-Way
- IllumaTech Preset Electro-Mechanical Electronic 0-10VDC LED Power
- Supply Dimmer - White face assembled on device. Ivory and Light Almond available.
