

LAS1

LED Architectural
Linear Strip

Simplistic design.
Advanced performance.

USLED[™]
Always the Right Choice!

Endless Lighting
Possibilities.

The LED Architectural Strip (LAS1) delivers brilliant illumination and visual comfort for those looking for a sophisticated indoor lighting solution. With a sleek form factor, the LAS1 comes standard in a beautiful white finish to integrate seamlessly into any indoor application to make the right lighting design statement. The LAS1 allows you to select your preferred CCT in the field for more versatility, further simplifying lighting design and installation.

***Post-painted powder coat
with a standard white finish.
Custom colors by request.***

***Polycarbonate flat lens
designed to maximize
output and minimize glare.***

The LAS1 offers immense flexibility for indoor lighting, thanks to the integrated switch to select the CCT that best complements the space. This feature empowers customization to simplify lighting design, ensuring a balance for optimal illumination and occupant well-being. Want customers to feel cozy while shopping? Make it feel warmer with 3000K. Want to improve productivity in the office? Change it to 5000K. Whatever the application, the LAS1 enhances the environment in any scenario.

Engineered with the end-user in mind, the LAS1 packages style and performance into the company's small linear profile. Its elegant form is carefully crafted to make it a statement piece for a space or easily integrated into the existing design. Everything about the LAS1 has been designed to perform as well as it looks, from the mounting hardware to the proprietary LEDs to the precision lens.

***Integrated switch to select
your preferred CCT at the
time of installation.***

***Extruded aluminum housing
optimizes thermal management
and protects components.***

No Application Out of Reach

Cable-Suspended

Surface Mounted -
Drywall or T-Bar Grid

Wall Mounted

Recessed Ceiling -
T-Bar Grid

Further adding to the adaptability of the LAS1, multiple contractor-friendly mounting kits are available to get the light exactly where you need it the most. These LAS1 mounting kit accessories help to facilitate more efficient installation for new construction and retrofit projects. For questions about ordering mounting hardware, please consult the factory.

Key Product Features

- Architectural linear solution that delivers exceptional illumination and design flexibility for any indoor space.
- Sleek design with no visible hardware or holes offering modern elegance for spaces.
- Selectable CCT with an integrated switch - 3000K, 4000K, and 5000K.
- Smooth dimming down to 5% with compatible 0-10V controllers.
- Industry-leading LEDs for consistent CCT and excellent color rendering of $Ra \geq 80$.
- Microwave sensor available; Casambi control solutions available.
